Personal Profile

Motivated, aspiring junior front-end developer with a passion for crafting visually appealing and user-friendly interfaces. Proficient in HTML, CSS, and JavaScript, with a solid understanding of responsive design principles. Eager to contribute creativity and coding skills to a dynamic team, bringing a fresh perspective to web development projects. Quick learner, detail-oriented, and committed to staying abreast of emerging technologies in the ever-evolving world of front-end development. I am always looking to challenge myself further and utilise the transferable skills I have developed over my professional and academic career. Coming from a creative background, I am naturally attracted to a lot of front-end and web & mobile app development. I am currently looking for an entry-level full-time position as a software developer mainly front-end.

Projects

Our House App	Dropbox-Clone	Booking.com-clone demo
App presentation	Deployed app	Deployed app
Github Repo		Github Repo

Experience

Cinesite · Roto & Prep artist · Remote ·

August 2022 - August 2023

Specializing in Roto. Creating roto mattes for Compositors within tight deadlines.Have a high level of concentration as I worked on challenging shots such as hair, fur, intricate details and heavy motion blur. **Projects & credits include:**

Hijack (Apple TV+ series), The Witcher Season 3 (Netflix series), The Family Plan (Apple TV+)

Experience

Northcoders · Remote · Trainee Software Developer

April 2022 - July 2022

- Fundamentals of full-stack software development and the best practises of programming in a 13 week coding bootcamp.
- Worked with API's, databases, covered express.js, node.js and SQL
- Version control with github, pair programming, TDD with jest and supertest
- Worked in a group of 5 to create a fully functioning mobile app called Our House. We achieved this collectively using Firebase for backend and React Native & Expo for frontend
- Skills in Axios, Typescript, OOP, HTML, CSS, React.js, React Native, Firebase, PostgresQL, Kanban, Figma, Next.js, Trello

Experience
